

Sippy Downs Drive Upgrade

Stage 4

Project number: P-B4250

Temporary changes to traffic conditions, Sippy Downs Drive Saturday 24 November 2018. 6am – 5pm.

As part of the Sippy Downs Drive Upgrade Project, Council must dig trenches across Sippy Downs Drive to install storm water pipes.

To safely undertake this work a section of Sippy Downs Drive, between University Way and Siena Catholic College, must be temporarily closed to vehicle traffic for a period of one day, Saturday 24 November from 6am – 5pm (weather permitting).

On this day, light vehicle traffic will be redirected along the Sippy Downs Drive Service Road as one-way traffic. Buses and heavy vehicles will be detoured via an alternative route. University Way will remain open.

Please refer to the map included with this notification for more details.

The speed limit along the Service Road will be posted as 40 km per hour and signage and traffic control will help to redirect motorists.

The entry to Siena Catholic College will also be temporarily closed during this time.

We thank you in advance for your understanding of these mandatory works and request that all motorists exercise additional caution when driving along the Service Road this Saturday.

Should you have any questions about this work, please feel free to contact us via the details below.

Council apologises in advance for any inconvenience as the project team works to deliver this vital upgrade to Sippy Downs Drive.
